B.subtilis 2×10^9 CFU/g

FOS i MOS po 150 mg/g

Dodaci ishrani za pse i mačke sa gastrointestinalnim problemima

- ▶ ProBio pasta 30/60 ml, špric - E.faecium NCIMB 10415 1×10^9 CFU/g, kaolin, pectin, akacija, turmeric, aroma

Dodaci ishrani za pse i mačke sa gastrointestinalnim problemima

Product Information
Product Data Sheet

CYLACTIN® LBC ME20 plus

Product code: 5010217

Description

CYLACTIN® LBC ME20 plus is a micro-encapsulated microbial feed additive for the stabilization of the intestinal flora, containing a dehydrated culture of the lactic-acid-producing strain *Enterococcus faecium* NCIMB 10415 on carriers.

Product identification

Product code: 5010217

Name: *Enterococcus faecium* NCIMB 10415

Specifications

Appearance: flowable granulate
Colour: white to light yellow
Content of *E. faecium* NCIMB 10415: min. 2×10^{10} colony forming units (cfu) per gram

Stability and storage

CYLACTIN® LBC ME20 plus may be stored for 18 months from the date of manufacture in the unopened original container in a dry place and at a temperature between 2°C and 8°C. The 'best use before' date is printed on the label.

Uses

To be used exclusively as a feed additive in the manufacture of animal feed.

Safety

This product is safe for the intended use. Avoid ingestion, inhalation of dust or direct contact by applying suitable protective measures and personal hygiene.

For full safety information and necessary precautions, please refer to the respective DSM Material Safety Data Sheet.
